

- hygienic process equipment
- system engineering and design

- fabrication and installation
- over 90 years of excellence

Food & Beverage Equipment

Liquid Ring

LKH Prime

- Hygienic Self-Priming Pump
- Superior Efficiency reduces energy costs
- Air-Screw Technology - Low NPSHr
- Clean-in-Place duties with entrained air
- Pumps product-reduces capital investment
- Balanced front loading seal fits 10 models
- LKH Pump Range offers 13 models
- 3A, CE, EHEDG

Process Engineering, Design, Fabrication, Installation

Oliver M Dean, Inc. has served the sanitary/hygienic process industries for more than 90 years with complete systems engineering, design & build hygienic systems, valves, skids, CIP/COP systems, ultrapure water, ratio blending, and more.

Process & Systems

- CIP / COP Skids
- Ultrapure Water Systems
- Hot Water Skids & Systems
- Thermal Process Tanks & Skids
- In Line Blending Systems
- Valve Manifolds
